# Office of the Chief of Navy Reserve

## Navy Reserve Information Management and Technology

***Brief to RFOTS***
***30 September 2008***

***CAPT Doug Swanson***
***Navy Reserve CIO***

***703-835-7555***

# BLUF

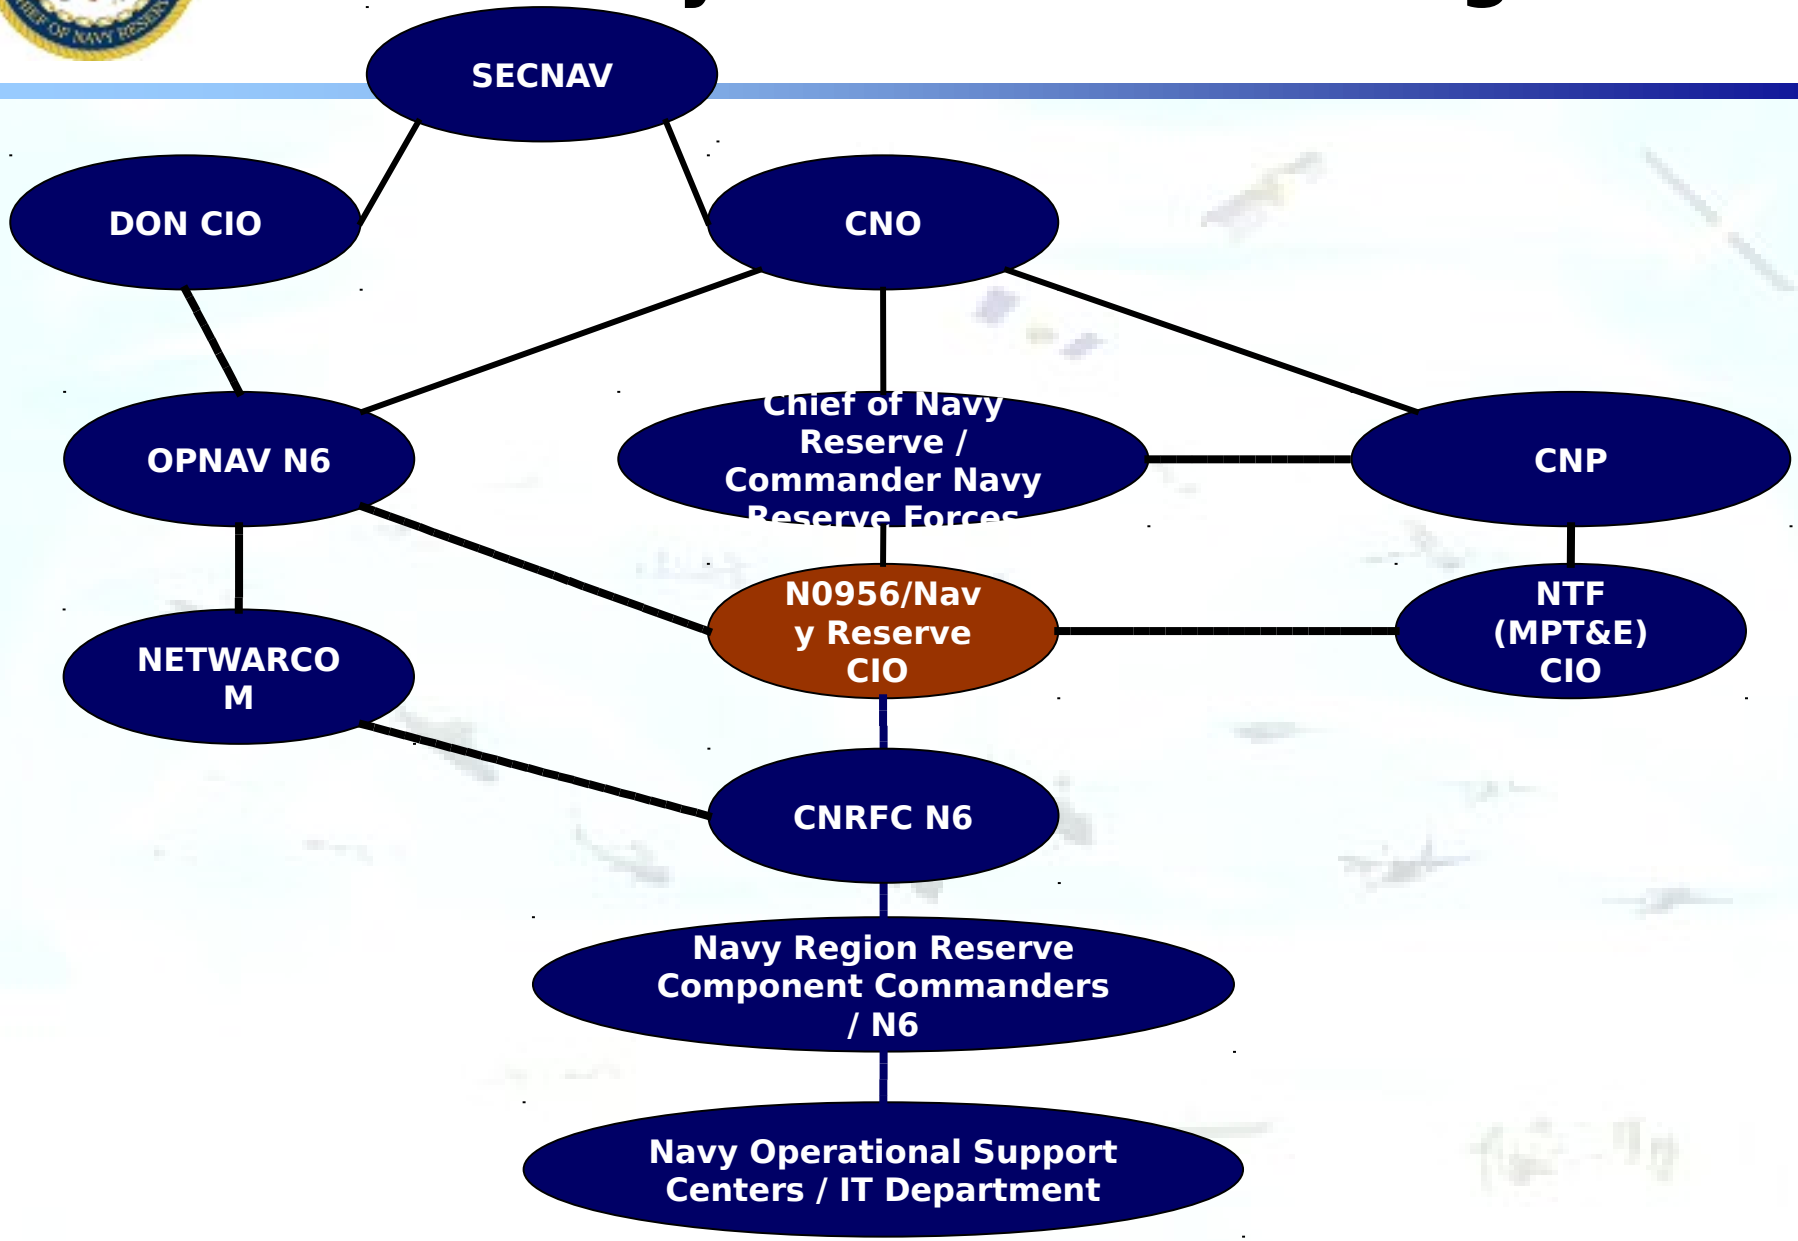
- **Navy Reserve IM/IT is aligned to fully support Enterprise and Domain IM/IT strategies and objectives**

- **Secure access for RC members is a priority now (NMCI) and in the future (NGEN). RC is actively engaged in shaping NGEN and ensuring it meets Total Force requirements.**

- **Protecting our data (personal and official Navy data) has become increasingly important and challenging and is forcing increased security measures including CAC/PKI enabled access and elimination of use of "dot com" for information sharing.**

- **Focus on Total Force systems supporting the vision of continuum of service. CMS-ID provides near term improvements in aligning AC and RC processes and supporting on and off-ramps. DIMHRS will provide a long-term solution.**

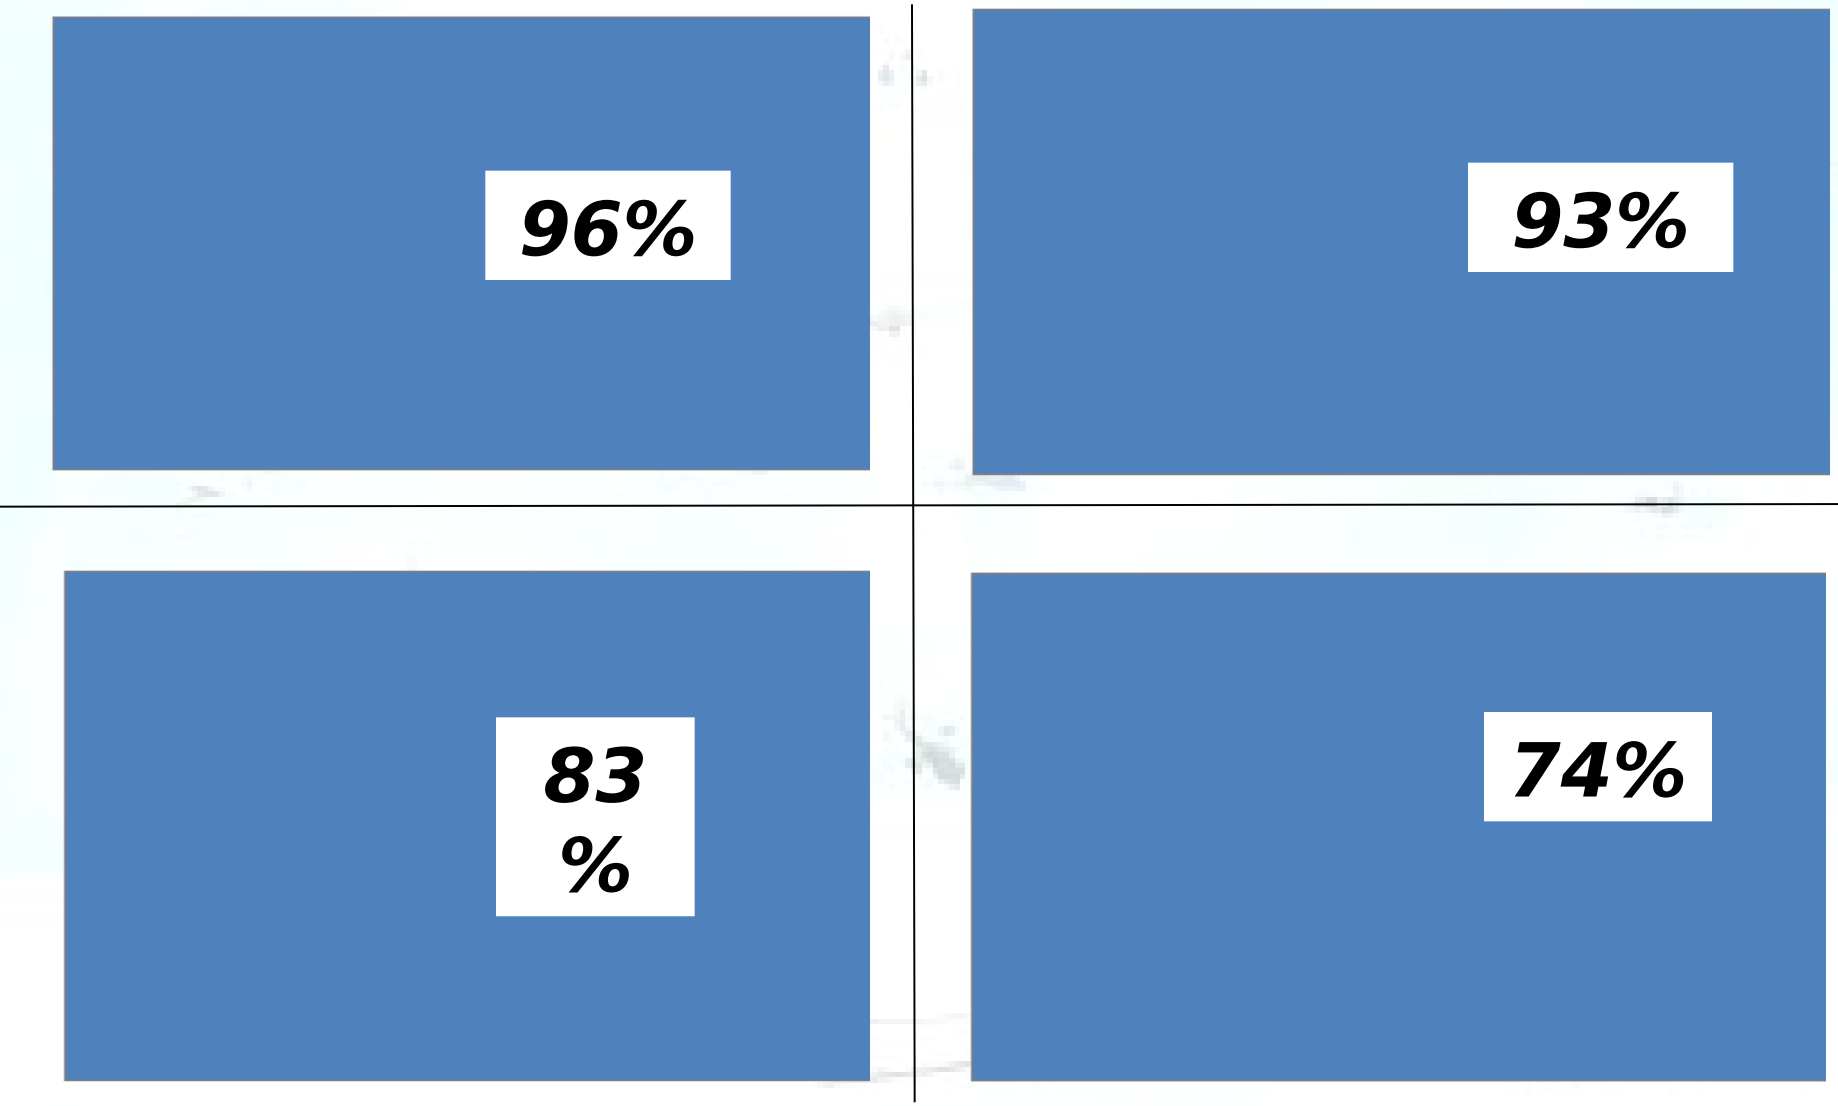
# Navy Reserve IM/IT Alignment



# Top Navy/Navy Reserve IM/IT Issues

- **Legacy Reduction/Reducing IT spend**
- **DIMHRS/MPTE migration**
- **NMCI/NGEN**
- **Security**
- **C2 tools/RC support**

# Progress
## Reserve Legacy Shutdown



# Progress

- 90% of Commands have Broadband SIPR capability
  - 20% via NMCI, 30% of seats
- RC COOP/DR capability being adopted by AC
- Actively engaged in Navy Data Center Consolidation
- Career Management System - Interactive Detailing (CMS-ID) ARI release November, AC2RC ECP in work
- RC aligned with AC in pursuing DIMHRS
- NRWS upgrade in line with Navy / DoD goals
  - Single Sign-On capability for RC Applications
- Actively engaged in shaping NGEN
- BPR – As-is complete

# Questions?
